STATISTICAL SCIENCE

Contents of Volume 11 (1996)

ARTICLES

ANDERSON, SHARON (see Hauck, Walter W.)

ANDERSON, T. W. R. A. Fisher and multivariate analysis, 20–34

BERGER, ROGER L. AND HSU, JASON C. Bioequivalence trials, intersection–union tests and equivalence confidence sets, 283–302

BERGER, ROGER L. AND HSU, JASON C. Rejoinder, 315–319

CANTY, A. J., DAVISON, A. C. AND HINKLEY, D. V. Comment on DiCiccio and Efron, 214–219

CHIU, S-T. Comment on Eilers and Marx, 102–104

CHOW, SHEIN-CHUNG (see Liu, Jen-pei)

CIFARELLI, DONATO MICHELE AND REGAZZINI, EUGENIO. De Finetti's contribution to probability and statistics, 253–282

COX, DENNIS D. Comment on Eilers and Marx, 112–114

CUMMINS, DAVID (see Nychka, Douglas)

DAVISON, A. C. (see Canty, A. J.)

DICICCIO, THOMAS J. AND EFRON, BRADLEY. Bootstrap confidence intervals, 189–212

EFRON, BRADLEY (see DiCiccio, Thomas J.)

EILERS, PAUL H. C. AND MARX, BRIAN D. Flexible smoothing with *B*-splines and penalties, 89–102

EILERS, PAUL H. C. AND MARX, BRIAN D. Rejoinder, 115–121

ENGEL, JOACHIM AND KNEIP, ALOIS. Comment on Eilers and Marx, 109–110

EUDEY, T. LYNN. Statistical considerations in DNA flow cytometry, 320–334

EVANS, MICHAEL AND SWARTZ, TIM. Rejoinder, 60–64

FLURY, BERNARD (see Tarpey, Thaddeus)

GENZ, ALAN AND MONAHAN, JOHN. Comment on Evans and Swartz, 56–57

GLESER, LEON JAY. Comment on DiCiccio and Efron, 219–221

GOLDSTEIN, LARRY (see Langholz, Bryan)

GU, CHONG. Comment on Eilers and Marx, 106–107

HALL, PETER AND MARTIN, MICHAEL A. Comment on DiCiccio and Efron, 212–214

HAUCK, WALTER W. AND ANDERSON, SHARON. Comment on Berger and Hsu, 303

HEISE, MARK A. (see Meredith, Michael P.)

HINKLEY, D. V. (see Canty, A. J.)

HSU, JASON C. (see Berger, Roger L.)

HWANG, J. T. GENE. Comment on Berger and Hsu, 313–315

JONES, M. C. Comment on Eilers and Marx, 108–109

KNEIP, ALOIS (see Engel, Joachim)

KOOPERBERG, CHARLES. Comment on Eilers and Marx, 110–112

LANGHOLZ, BRYAN AND GOLDSTEIN, LARRY. Risk set sampling in epidemiologic cohort studies, 35–53

LEE, STEPHEN M. S. AND YOUNG, G. ALASTAIR. Comment on DiCiccio and Efron, 221–228

LIU, JEN-PEI AND CHOW, SHEIN-CHUNG. Comment on Berger and Hsu, 306–312

MARTIN, MICHAEL A. (see Hall, Peter)

MARX, BRIAN D. (see Eilers, Paul H. C.)

MEREDITH, MICHAEL P. AND HEISE, MARK A. Comment on Berger and Hsu, 304–306

MILLER, ARDEN AND WU, C. F. J. Parameter design for signal–response systems: a different look at Taguchi's dynamic parameter design, 122–136

MONAHAN, JOHN (see Genz, Alan)

NYCHKA, DOUGLAS AND CUMMINS, DAVID. Comment on Eilers and Marx, 104–105

REGAZZINI, EUGENIO (see Cifarelli, Donato Michele)

ROSENBERGER, WILLIAM F. New directions in adaptive design, 137–149

SAIN, STEPHAN R. AND SCOTT, DAVID W. Comment on Eilers and Marx, 114–115

SCHERVISH, MARK J., WASSERMAN, LARRY AND WOLFINGER, RUSS. Comment on Evans and Swartz, 57–60

SCHUIRMANN, DONALD. Comment on Berger and Hsu, 312–313

SCOTT, DAVID W. (see Sain, Stephan R.)

SHAW, J. E. H. Comment on Evans and Swartz, 54–56

STIGLER, STEPHEN M. The history of statistics in 1933, 244–252

TARPEY, THADDEUS AND FLURY, BERNARD. Self-consistency: a fundamental concept in statistics, 229–243

WASSERMAN, LARRY (see Schervish, Mark J.)

WOLFINGER, RUSS (see Schervish, Mark J.)

WU, C. F. J. (see Miller, Arden)

YOUNG, G. ALASTAIR (see Lee, Stephen, M. S.)

CONVERSATIONS

ALEXANDER, KENNETH, S. A conversation with Ted Harris, 150–158
BANKS, DAVID L. A conversation with I. J. Good, 1–19
BATHER, JOHN. A conversation with Herman Chernoff, 335–350
BINGHAM, N. H. A conversation with David Kendall, 159–188
FRANKEL, MARTIN AND KING, BENJAMIN. A conversation with Leslie Kish, 65–87
KING, BENJAMIN (see Frankel, Martin)
